A new Special Issue Application and Development of Catalytic Cracking Series Combined Unit and Family Technology in Oil Refining and Petrochemical Industry (http://www.applchem.org/sinfo/227012) has been launched in American Journal of Applied Chemistry (http://www.applchem.org). This Special Issue intends to collect research achievements concerning Oil Refining and Petrochemical Industry. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

**Lead Guest Editor**

Lead Guest Editor: Xu Ri
Affiliation: China National Offshore Oil Corporation, Huizhou Petrochemical Co. LTD, Huizhou, Guangdong, China

**Paper Submission**

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via http://www.applchem.org/submission

**Topics of Interest Include (but not limited to):**

- Fluidized catalytic cracking
- Application and development
- Family series
- Joint device
- Heavy oil becomes lighter
- Olefinization of heavy oil
- Reactor and actifier column structure
- Oil refining and petrochemical industry
- Role and status of FCC now and in the future

**Important Dates**

Submission Deadline: Aug. 15, 2020
Publication Deadline: Oct. 15, 2020

**Join as Guest Editor**

For scholars who have intention to join the special issue as guest editor, please check out the link below:
